

User Guide Showing Diagnosis View EMIS

Introduction

This guide will show you how DXS Point-of-Care reacts when you enter a problem or the associated read code into your clinical system during a patient consultation.

Instructions

1. When entering a problem or the associated Read code into your clinical system, the DXS Point-of-Care toolbar will expand and present links to relevant information in DXS Point-of-Care.

2. In some cases, a banner might appear to highlight that important information is available.

- 3. Click on the banner to access the information.
- 4. The content within DXS Point-of-Care is filtered according to the problem entered.

5. This is referred to as 'Diagnosis View'.
