

Quick Start - Find that Form

SystemOne

1

You can find a document by entering a problem or read code, which will display a **banner**.

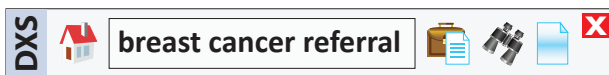

Clicking on the banner will navigate to the document.

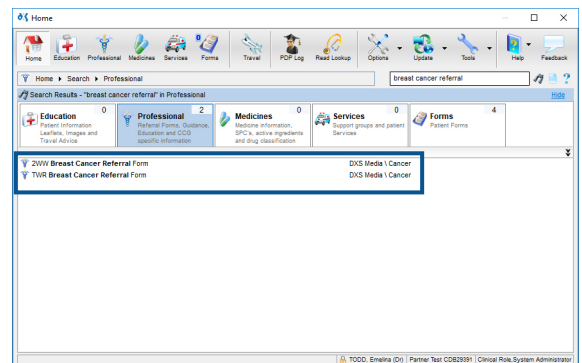

2

Alternatively, you can use the **Search** function.

From the floating toolbar enter the form name or other keyword.

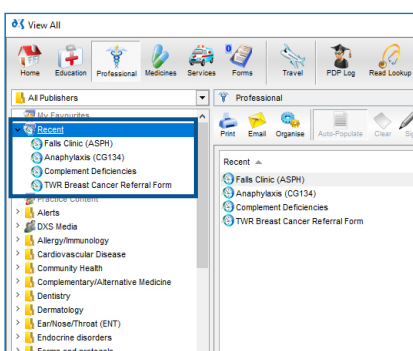

DXS will present you with a list of search results.

3

In the Professional section the form you require may also be listed under your **Recent** items.

4

Forms that are used regularly can be added to **My Favourites** for quick access when needed.
